

June 3, 2021

Dear Governor Jay Inslee,

On June 30, 2021, Washington communities will not be prepared for the expiration of the eviction moratorium. The moratorium has played an immeasurable role in preventing homelessness and preventing the spread of COVID-19. Your moratorium has protected vulnerable households and has prevented racial inequities related to COVID from getting even worse. However, a June 30 expiration would undo it all and will cause significant harm to the state. It should not be lifted until counties have key protections in place that the state legislature passed this session. The Office of Civil Legal Aid is reporting that the Right to Counsel and Eviction Resolution Pilot Program (as passed in SB 5160) will not be fully implemented statewide until the end of 2021, and hundreds of millions in federal and state rental assistance funds have yet to be dispersed.

We urge you to extend the moratorium until counties can demonstrate they are able to prevent evictions. Further, we are asking you to extend the prohibition on rent increases for one year. There are almost 400,000 renters in Washington who are current on rent but who are hanging on by a thread, using unsustainable means to meet their basic needs. Rent increases will push many into our already overwhelmed rental assistance programs and will raise the cost of housing stability.

Instead, we propose an orderly process that lifts the moratorium on a county-by-county basis only after each can demonstrate to you that it has met certain criteria including:

- 1) The Right to Counsel is ready to go,
- 2) A significant amount of their rental assistance dollars are out the door and they are able to keep pace with the demand,
- 3) The Eviction Resolution Pilot Program is in place and is able to keep pace with the demand.

Allowing any county to proceed with evictions before these vital programs are ready will undermine the intent of your moratorium and of the bills and budget investments made this session. Washington will experience the flood of evictions and homelessness that so many, including you and your team, have worked so hard to prevent.

Undoubtedly, those most impacted by prematurely lifting the eviction moratorium will be those historically most marginalized -- BIPOC communities, people with disabilities, households with children, LGBTQIA+ communities, immigrants, those with the lowest incomes, and other marginalized groups. Census data shows that 34% of Latinx/Hispanic renters and 16% of Black renters are behind on rent, compared to 3% of white households. People with disabilities related to seeing, hearing, or mobility also report high rates of falling behind on rent.

The undersigned 150 organizations and 1,043 individuals urge you to take swift action to extend the eviction moratorium until counties have the key protections in place, and to extend the prohibition on rent increases for one year. Thank you for your leadership. Your moratorium has literally saved lives - we are counting on you to keep it in place for a while longer.
