About Us

The Housing Alliance changes public policy so that people in Washington of all races, ethnicities, abilities, genders, and identities can live in safe, healthy homes they can afford. We do this through educating decision-makers, organizing, and amplifying the voices and priorities of people and communities most impacted by housing instability and homelessness.

Our membership spans people & organizations across the state including homeless service providers, affordable housing providers, people with lived experience of homelessness, tenants rights advocates, county governments, and more.

Since housing injustice compounds at the intersections of race, disability, income, gender identity, sexual orientation, involvement in the criminal legal system, & more, we prioritize those farthest from justice in our policy work and in our leadership opportunities.
