'Ping' System for HMIS Referrals

Internal Referrals

- We used to use slack, paper forms, and email for these
- Intended to flag clients that would benefit from specific additional supports
- Scalable!

•

External Referrals

- We used to use a hodgepodge of systems (email, hand-delivered paper files, Google sheets...)
- Using HMIS increased confidentiality
- Fully trackable, less likely that clients will fall through the cracks
