WELCOME

On behalf of the Housing Alliance and the conference program development committee, we welcome you to the 2019 Conference on Ending Homelessness. We are pleased to be here in Spokane, where a strong provider and advocate community is committed to ending homelessness.

We know that our communities have the solutions and the skills to solve this challenge. Our intention is that this conference provides you an opportunity to further develop those skills and share and learn best practices with peers and colleagues. Whether you’re a direct service provider, funder, or community member, we’re confident you’ll find relevant learning and networking opportunities over the next two days.

We’re excited to bring you three exceptional plenary speakers this year: State Senate Majority Leader Andy Billig, Dr. Tiffany Manuel of TheCaseMade, and Nan Roman from the National Alliance to End Homelessness.

This year’s conference also includes:

• Sessions on equity and racial justice;
• Trainings for direct service providers;
• Updates on state and federal policy changes;
• Opportunities to engage in community organizing and advocacy, and more.

After you leave the conference, we hope you will stay engaged with the Housing Alliance throughout the year and continue to be part of the movement to ensure everyone has the opportunity to live in a safe, healthy, affordable home.

Thank you for your work and for being part of this year’s conference.

Closing Lunch Keynote Address

Dr. Manuel is working to strengthen the capacity of our nation’s leaders to make the case for building inclusive communities and to effectively tackle all forms of social, racial and economic inequality. She believes “working toward racial equity in housing means that we are actively and intentionally pursuing policies, programs and investments that reduce racial disparities – with the goal of making it impossible to use race as a predictor of any negative social outcome.”

AFFINITY GROUP CAUCUS SPACE

Allyship Caucus
LOCATION: Room 102ABC

The Allyship Caucus is a space where we can explore the ways in which aspects of our identities give us privilege, or unearned advantage, in the world and in our work around housing and homelessness. For you, this may manifest through your race, sexual orientation, gender, religion, citizenship status, and/or other aspects of your identity. The intersection of these parts of you will also affect how you are in the world. In this caucusing space, we will have a facilitated discussion around how we can use the power and access that comes with privilege to show up for and center those who have historically been marginalized so that we can work toward a more equitable and just society. For those who have never engaged in a space like this, we invite you to join with an open and curious mind. For those who are familiar with caucusing groups, we invite you to continue in your work.

Please grab breakfast from the buffet and take to Room 102ABC.

BREAKOUT SESSIONS

A1: Rx: Home (1.0 CEU)
LOCATION: Theater

The session is aimed to combat the popular misconception that homelessness can be solved through outpatient care alone. Housing serves as the platform upon which all treatment can be more lasting and effective. Participants will learn how assertive treatment models can be paired with Housing First programming to address homelessness and improve the lives of people living with physical and behavioral health challenges.

SPEAKERS: Lauren Fay, BA, Senior Business and Operations Analyst, DESC
Noah Fay, MPA, Housing Director, DESC

WHY AFFINITY GROUP CAUCUSING?

By talking with people who are like us, we can gain new insights into our own beliefs and those of others. We practice talking through difficult issues we face in the world. We can unpack our own “baggage” before joining discussions in mixed groups. Participants gain mutual support and learn their voice can make a difference. People who caucus build new relationships and trust while exploring different ways to work with others.*

We will post PowerPoint presentations and handouts to wilha.org/COEH/program post-conference.
A2: Innovative Opioid Use Disorder Treatment Projects in Washington State (1.0 CEU)

LOCATION: Room 201

The federal Substance Abuse and Mental Health Services Administration (SAMHSA) awarded the Washington State Health Care Authority (HCA) approximately $32 million to help combat the opioid crisis through the State Opioid Response (SOR) Grant. This presentation will touch on the innovative projects for opioid use disorder treatment created as a result of this funding, including their locations and how the projects are doing. The presentation will focus on the 2nd generation hub & spoke projects, called Opioid Treatment Networks (OTNs), which are located in 17 communities across Washington State. Network contractors include emergency departments, jails, syringe exchanges, a fire department, and an emergency services center.

SPEAKERS: Amy Dura, MA, LMHC, MHP, CMHS, CDPT, State Opioid Response Grant Treatment Manager, Division of Behavioral Health and Recovery, Washington State Health Care Authority
Stephanie Endler, MPA, State Opioid Response Grant Project Director, Division of Behavioral Health and Recovery, Washington State Health Care Authority

A3: Landlord Mitigation and Tenancy Preservation Programs (1.0 CEU)

LOCATION: Room 206C

Become familiar with the Landlord Mitigation and Tenancy Preservations Programs offered by the State of Washington. Learn how to recuperate thousands of dollars for repairs and changes brought upon landlords by Senate Bill 5600.

SPEAKER: Nicholas Yuva, Landlord Resource Administrator, Washington State Department of Commerce

A4: Clients as Social Services Staff? Absolutely, Welcome to ASSET! (1.0 CEU)

LOCATION: Room 206AB

Human and social service providers have long recognized the wisdom of clients’ lived experiences and the benefits their knowledge can bring to direct services. Washington is fortunate to boast two strong annual conferences that bring together people and organizations dedicated to ensuring that everyone in our state can live in an affordable home.

Now, Housing Washington and the Conference on Ending Homelessness are excited to announce that we are working on a formal collaboration that will result in a shared venue and overlapping dates in 2020.

While we will have some shared programming, each event will remain independent and keep what makes it unique and most valued by participants.

In 2020, look for opportunities for registration discounts for attending both events (not to mention reduced travel costs), sponsorship opportunities that will reach more than 1,500 participants, and powerhouse speakers to inspire solutions.

“Along with the Department of Commerce, the Commission and the Housing Alliance have collaborated to bring our field together for these conferences for years,” said Kim Herman, executive director of the Washington State Housing Finance Commission. “This is the next step in strengthening that collaboration and I truly believe it will make both events even stronger.”

Rachael Myers, executive director of the Washington Low Income Housing Alliance, which organizes the Conference on Ending Homelessness, agreed that the collaboration opens new doors to partnership.

“Ending homelessness and meeting our state’s housing needs takes all of us,” she said. “Solutions should be informed by the nonprofit, public, and private sectors, and most especially people with lived experience with housing instability. This will provide a new opportunity to bring everyone together to work for the solutions we need.”
